

Conditions of participation for SFIVET photo competition

- By taking part in the competition, participants accept the following conditions.
- The participants hereby confirm:
 - that the submitted photographic material is a work of their own and that they have unrestricted ownership of the submitted photographic material.
 - that the submitted photographic material does not infringe upon any rights of third parties, in particular no intellectual property rights or personal rights.
 - that all persons depicted have signed SFIVET's declaration of consent for the use of photo, audio and video material and have given this declaration to the organiser.
- The participants transfer to SFIVET the right of use and exploitation, this right being unrestricted in terms of both time and location, of the photographic material submitted. The transfer also includes new and as yet unknown types of use. SFIVET is thus entitled to freely dispose of the photographic material of participants in the competition without any additional remuneration being owed.
- The participants waive the assertion of personal rights vis-à-vis SFIVET, in particular the integrity and naming of the work. SFIVET is therefore under no obligation, but is entitled, to mention the participants when using submitted works.
